Verification Statement
Climate, Community, and Biodiversity Standards
Wildlife Works – Kasigau Corridor REDD+ Project Phase II – The Community Ranches

23 May 2013
Project No. VO12103.00

This verification statement confirms that Environmental Services, Inc. (CCBA-Approved Validator) has evaluated the implementation of the CCB Project Description prepared by Wildlife Works Carbon, LLC (Project Developer) for the project entitled *Wildlife Works Kasigau Corridor REDD+ Project Phase II – The Community Ranches, dated 23 May 2013*, according to the criteria outlined by the Climate, Community & Biodiversity Standards (Second Edition- December 2008) and that this verification statement is consistent with ISO 14064-3:2006 and ISO 14065:2007. This CCB project verification applies to the Kasigau Corridor REDD Project –Phase II The Community Ranches Project, a REDD (Reduced Emissions from Deforestation and Degradation) project estimated to avoid the emissions of CO2e that would have been emitted due to slash and burn deforestation. This project will achieve this emission reduction through a combination of dryland forest protection and extraordinary community sustainable development activities.

Phase II of the Kasigau Corridor REDD project includes the forest conservation of 13 blocks of land owned by Indigenous Community Ownership Groups, each one of the thirteen blocks being owned by different legal entities formed some years ago by the Communities and the Government of Kenya to hold legal title to the land.

The dates of the period evaluated for this verification are 1 January 2012 to 31 December 2012.

Environmental Services, Inc. confirms all verification activities including objectives, scope, criteria, level of assurance, project description implementation, stakeholder interviews, monitoring report, and project implementation report adherence to the CCB Standards as documented in our report entitled *Climate, Community, and Biodiversity Alliance Project Validation / Verification Report*, dated 23 May 2013 are complete and concludes without any qualifications or limiting conditions that the *Wildlife Works Kasigau Corridor REDD+ Project Phase II – The Community Ranches*, is without material discrepancy and that the verification activities provide a reasonable level of assurance. The *Wildlife Works Kasigau Corridor REDD+ Project Phase II – The Community Ranches* meets the requirements of the Climate, Community, and Biodiversity Standards (Second Edition – December 2008) and produces net climate (Phase II 1,255,747 tCO_2e), community, and biodiversity benefits.
