Verification Opinion	The SCS Greenhouse Gas Verification Program has conducted a Verification audit of the "Kasigau Corridor REDD+ Project Phase I – Rukinga Sanctuary" project against the requirements of the Climate Community Biodiversity Alliance (CCBA) Project Design Standards Second Edition. SCS conducted both desk and field based assessment activities in its evaluation of the project. SCS used the client-supplied project documentation as the basis for its evaluation. Following completion of SCS' assessment process, it is our opinion that the project meets the quality standard defined in the Climate Community Biodiversity Alliance (CCBA) from 01 January 2015 – 31 December 2017, and the project is likely to achieve its estimated climate, community and biodiversity benefits.
